

About Our Meat

All the beef we serve in 1817 is selected by Mr John Chadwick and comes mainly from Messrs H, G & D Johnson of Aspull. They are family farmers and provide you with the best possible quality of English beef.

It is because of farming families like the Johnsons that England – and the rest of the UK – has the best meat in the world.

Our pork is sourced by a friend of the family who specialises in pork meat. The confidence we have in the supply and reliability means that our customers get the very best pork available.

Our lambs are sourced from just 2 farms and all are produced in a natural free environment enabling us to have spring lamb almost continually throughout the year.

These farmers and their families work 7 days a week, 52 weeks a year, and sometimes 24 hours a day, to bring the best lamb in England to our customers.

We do not – and will not – use imported cheap chicken. Only the best is good enough for our customers. Our chicken supplier has been working alongside us for the past 30 years. We are tremendously grateful for their constant and continuing vigilance which allows us to sell an additive free natural product.
